

# Revolution Festival 2024: Recommended reading

As well as an anti-imperialist conference, the Revolution Festival is a school of communism to train revolutionary leadership.

In the current world situation of imperialism, wars, and revolutions, the importance and urgency of building a theoretically trained revolutionary leadership cannot be overstated.

Theory is a guide to action. Without it, there can be no revolutionary movement. Attendees to the Revolution Festival should prepare themselves in advance by using this list of recommended materials for each session they attend.
